

ROHAN CHOPRA

UCSD Class of 2027 • Provost Honors Program • B.S. Cognitive Science: UX/UI Design & Interaction
Saratoga, CA • rochopra@ucsd.edu • (669) 251-4078 • LinkedIn: [linkedin.com/in/rohanchopra06](https://www.linkedin.com/in/rohanchopra06)

EDUCATION

University of California, San Diego

B.S. Cognitive Science: UX/UI Design & Interaction, Entrepreneurship & Technology Minor

Expected Dec 2027 • GPA: 3.92 • Provost Honors Program

Relevant Coursework: Data Science, Info Architecture, Python Programming, Research Methods, Multivariable Calculus, Cognitive Consequence/Tech, Statistical Analytics, Business, Economics, Media Studies, International Honors Seminar

EXPERIENCE

AI/ML Annotation and Evaluation Specialist; Designer - Mercor

May 2026 - Present

- Evaluated 500+ LLM-generated professional decks, websites, and designs across tasks: aesthetic ranking, style matching, content grading, template creation/following, and design instructions, with different judgement criteria.
- Wrote 1000+ design critiques analyzing AI outputs against UX visual design standards and writing quality, translating expert judgment into structured feedback that improved LLM output quality and human-centered design.

AI Research and UX/UI Design Intern - Egnite Inc. (AI-Powered Content Cloud)

Jan 2026 - April 2026

- Designed and executed end-to-end user research study across 23 employees spanning 8 departments and 3 seniority tiers, segmenting findings by AI adoption behavior to isolate root causes of low feature utilization.
- Diagnosed that discoverability was the primary driver of low AI adoption, and output quality gaps were routing sensitive work to external LLMs. Delivered a prioritized 5-agent roadmap influencing Q2 AI product strategy.

Web Design & Operations - Chopra Partners LLC (Boutique Financial Advisory Firm)

Jun 2025 - Dec 2025

- Designed and launched full-stack web presence for a boutique financial firm, integrating custom UI/UX, AI-powered SEO tools, and automated client workflows: reduced operational overhead, improved discoverability.

Data Analytics Board - Cognitive Science Student Association at UCSD

Jan 2025 - Present

- Designed branding assets, promotional graphics, and reels for 5 large-scale events reaching 500+ attendees.
- Coordinated visual identity across social media campaigns from concept to post; analyzed event engagement data and optimized marketing logistics, enhancing outreach and execution for large-scale student events.

Filmmaker & Producer - NASA CineSpace International Film Competition Winner

March - Nov 2022

- Created "Journey to Mars," a narrative documentary selected as Best STEM Film among 169 international entries.
- Produced entirely end-to-end including research, scripting, cinematography, archival NASA footage sourcing, audio engineering, and all post-production; showcased on NASA Space Station Channel and at Houston Cinema Arts Festival.

PROJECTS & RESEARCH

Spotify Weather-Based Analysis Data Science Project

Data Science in Cognitive Systems | Fall 2025

- Built a Python (NumPy, Pandas) data pipeline merging Spotify audio features with real-time weather datasets.
- Analyzed correlation between environment and music choice across 3 countries, identifying valence and energy patterns.

Triton Research & Experiential Learning Scholars (TRELS) Scholarship Recipient at UCSD

AI Ethics & Cognitive Research | Spring 2025

- Researched the historical roots of inequality, analyzing redlining and wealth disparities to understand their impact on modern algorithmic bias in decision systems.
- Synthesized findings into a multimodal documentary, integrating expert interviews and narrative analysis.

TECHNICAL & CREATIVE SKILLS

- **Data & AI:** LLM Training, Python (NumPy, Pandas), Statistical Modeling, Prompt Engineering, Data Visualization
- **Research & Strategy:** Qualitative/Quantitative Research, User Interviews, Survey Design, Competitive Analysis
- **Design & Creative:** Figma, Excel, Final Cut Pro, Logic Pro, After Effects, Premiere Pro, Illustrator, Photoshop
- **Marketing & Media:** Video Editing, Film Production, Audio Engineering (100k+ streams), Event Branding
